Kaleab Shewanhe

Attended Debre markos university
Addis Ababa, Addis Ababa, Ethiopia

Experience

Go Digital Technology
Mobile Application Developer
September 2024 - Present (9 months)
Bole, Addis Ababa, Addis Ababa, Ethiopia

During my internship at Go Digital, I had the opportunity to work on range of
mobile application project , gaining hands-on expreience in app development
using flutter . My task included developing and completing project such as
Dictionary , Music player and Qr code attendance system

Perago Information Systems PLC
Back-end Developer
August 2024 - September 2024 (2 months)
Addis Ababa, Ethiopia

During my internship at perago Systems, i am working as a back end
developer , my primary project involved creating a comprehensive test
automation system for the company's main codbase. This system was
designed to handle multiple API endpoint that were interlinked , requiring
a sequential workflow. this project enhance my skills in API development ,
automated testing . It also gave me valuable experience in working with
complex backend system in NestJs
